AiPorbo | CLOUD COST INTELLIGENCE

Evidence-led AWS cost clarity, without credential sharing

SERVICE OVERVIEW

Know where your cloud budget goes.

AiPorbo turns authorized AWS billing exports into a clear spending assessment, anomaly screening, prioritized optimization investigations and a professionally presented report.

WHAT YOU RECEIVE

01 Cost visibility

Service or usage-type breakdown, daily/monthly trends and key cost drivers.

02 Anomaly screening

Identify unusual spending patterns and billing-cadence spikes for investigation.

03 Optimization leads

Evidence-backed areas to review: compute, databases, storage, networking and commitments.

04 Executive-ready PDF

Concise findings, ranked actions, methodology and limits of billing-only analysis.

HOW IT WORKS

1 / SHARE	2 / ANALYZE	3 / REVIEW	4 / DELIVER
Authorized AWS CSV	Automated screening	Expert validation	PDF + action plan

WHO IT IS FOR

SaaS businesses, growing software teams, technology-led SMEs and agencies managing AWS spend - especially those without a dedicated FinOps function.
